A Prismatic Binocular mechanically and optically correct is no longer a luxury, but an economical means of enjoying the finer things in life. The great skill required in adjusting the prisms, the experience demanded for producing perfect lenses and the complete finish of the frame are controlled at our plant with the utmost care by modern scientific equipment. The famous MONTE CARLO Binoculars manufactured in France, now offer higher quality than at any time during the past quarter of a century. Your guarantee of clear and distinct vision add to the thrill of ownership of quality MONTE CARLO Binoculars. Every detail receives meticulous care.

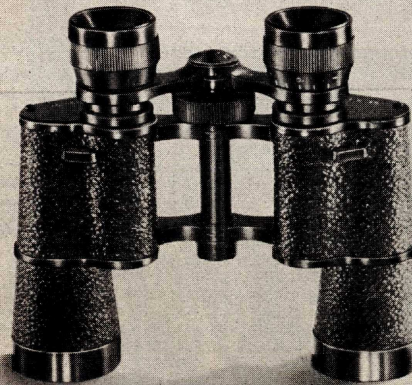

8x30
\$25.00

MONTE CARLO Binoculars bring you right up to the ringside at boxing matches, giving you close-ups at the races, and are invaluable for all sports and games, sailing or hunting, whether you are a spectator or a referee.

8x34
\$35.00

MONTE CARLO products are guaranteed free from defects of workmanship and materials. This guarantee does not cover breakage from accident or misuse. Every binocular is in perfect condition before leaving the factory having undergone complete mechanical and optical tests.

10x35
\$37.00

MONTE CARLO Binoculars feature Center Wheel Focusing with adjustable right eye ocular lens. This permits the user to adjust to the correction necessary for his eyes. Focusing may then be changed instantaneously as the players move up or down the field. Glasses without Center Wheel Focusing are of little use to the sportsman. ALL MONTE CARLO BINOCULARS FEATURE THIS DESIGN.

For correct color rendition, and a high quality image without color fringe it is necessary that the ocular lens of a binocular be achromatic. For convenience an ocular should be Large. ALL MONTE CARLO BINOCULARS FEATURE THIS DESIGN.

As the distance between the pupils of the eyes vary in every individual a hinged binocular is an absolute necessity. Hinges should be durably constructed so that a smooth easy action results. ALL MONTE CARLO BINOCULARS FEATURE THIS DESIGN.

SPECIAL MONTE CARLO BINOCULARS

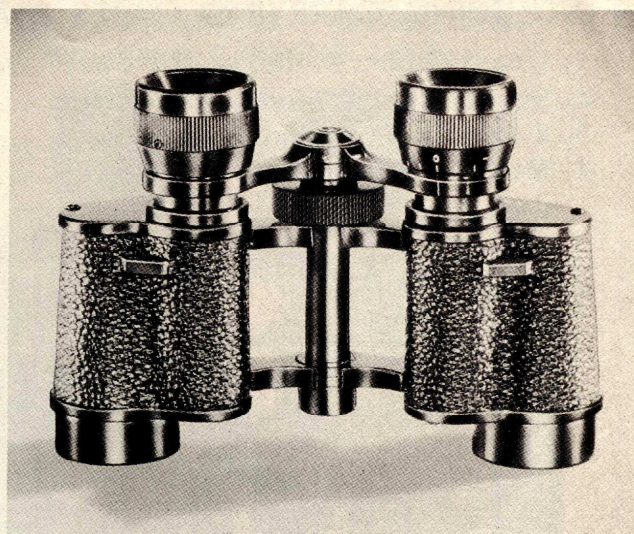

Wholesale

INCLUDING CARRYING CASES & ALL STRAPS

MONTE CARLO - Especially designed for the Hunter. The luxurious features of this compact binocular will make the huntsman's heart glow with pride of possession. In searching for game it is frequently necessary to examine wide areas rapidly for telltale marks. Accordingly, a wide field of view is of greater value than high magnification. During the lengthy time spent in the field an experienced hunter will not burden himself with bulky equipment, but requires a sturdy, dependable glass with good light transmission for clear identification before taking his shot.

6x30

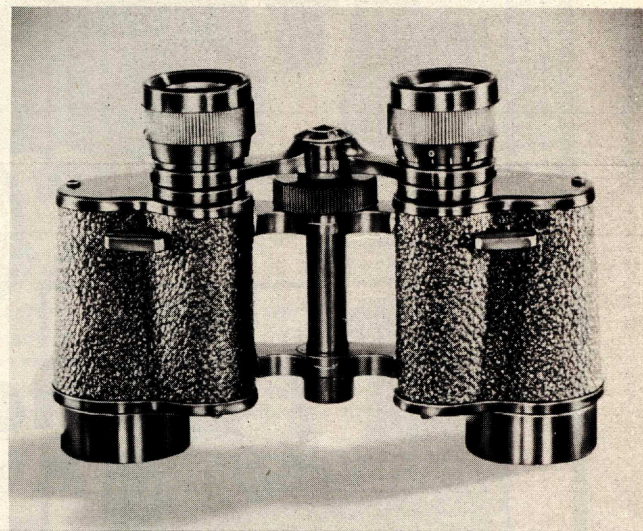

\$25.00

MONTE CARLO - Many people require a moderate power binocular stressing an especially wide field of view. In this binocular, our newest postwar model, not only have we secured excellent optical characteristics, but in addition they have been incorporated in a Low Frame binocular. The compact body of this glass is of unusual strength and durability, with a handsome appearance. Such features are especially desired by the yachtsman, navigator and aviator. At football games, polo matches and other open field sports, this compact binocular will render pleasurable service to the spectator.

7x35

\$35.00

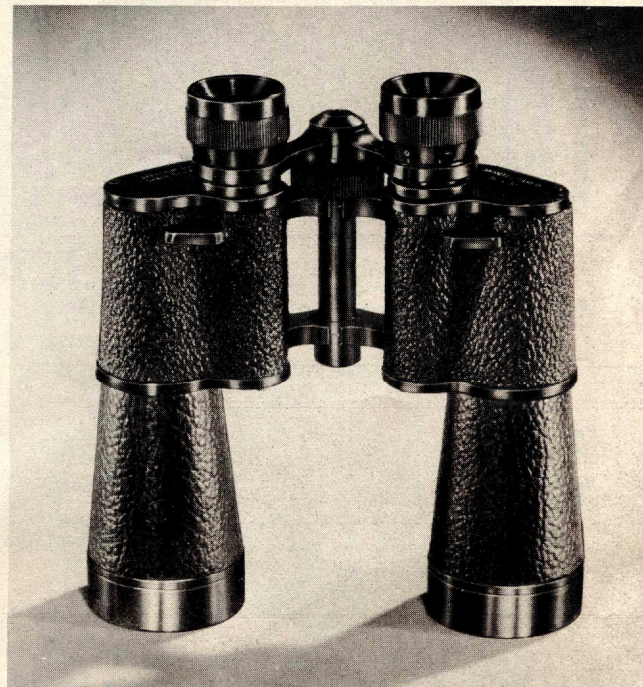

MONTE CARLO - This High Frame Glass fulfills the requirements of difficult identification at extreme range. Only the most powerful optical instruments will give satisfactory results under certain circumstances and the 16 power magnification and high quality optical system of this new model even surpasses the unusual quality of our prewar glasses. For those who want the most powerful binocular that can be hand held, we suggest this superior binocular. Specialists in many fields require such precise identification over a narrow field such as forest rangers, explorers, surveyors, etc. Few manufacturers are able to produce a binocular of this high magnification.
