IMPORTED BINOCULARS

With Coated Achromatic Lenses and Prisms

NEVER BEFORE AT THESE HISTORY MAKING PRICES

Lafayette has gone "all-out" to present these fine, imported Zeiss type binoculars at historical lowest of prices! Each of these extremely precise optical instruments has coated lenses—arranged in just four glassed prism—light weight—strong all metal bodies—weather proof, heat proof—water proof—maximum light transmission—minimum distortion. Made by leading optical manufacturers in our own 11,500 specifications. Whether you are a sportsman—hunter—fisher—sports fan—or a bird watcher—you'll find the binoculars you need in Lafayette's great selection. And Lafayette's famous money-back guarantee applies as always.

INSIDE INFORMATION ON BINOCULARS

FOCUS—mechanism by which central lens (C.L.P.) by means of a single wheel and one adjustable eye piece, or individual focus (I.F.) wheels both eye pieces are separately adjustable.

POWER—is the number of times an image is magnified through your binoculars. For example 7X (7 power) means the object will appear 7 times larger (or closer)

than with the naked eye. The second number used Dia. No. "W" in (2X, 3X) is the diameter in millimeters of the objective lens.

COATED LENSES—used to reduce reflection and pass up to 90% more light than uncoated lenses.

FULLY GUARANTEED FOR 6 MOS. AGAINST MECHANICAL AND OPTICAL DEFECTS.
