Tasco BINOCULARS

Imported from Japan

Each with Plush-Lined Genuine Pigskin Leather Hardcase with Straps

(A) TASCO 7x50 "CHICAGO" BINOCULARS—ZEISS STYLE
 The most popular of them all . . . for use on land or sea or when light conditions are poor. Magnification 7 times. Wide objective lenses, 50mm, coated with magnesium fluoride, give the maximum light gathering power and stand highest in the luminosity rating. Relative brightness 50.4. Linear field, exceptionally clear, bright field of view of 372 ft. at 1,000 yards. A top value! With plush-lined, genuine leather hardcase with straps.
Tasco 7x50 "Chicago" with Individual Focus. Retail 35.26. **24.68**
12CTASCO-1. Dealer's, Each Net.
Tasco 7x50 "Chicago" with Center Focus. Retail 39.90. **27.93**
12CTASCO-1A. Dealer's, Each Net.

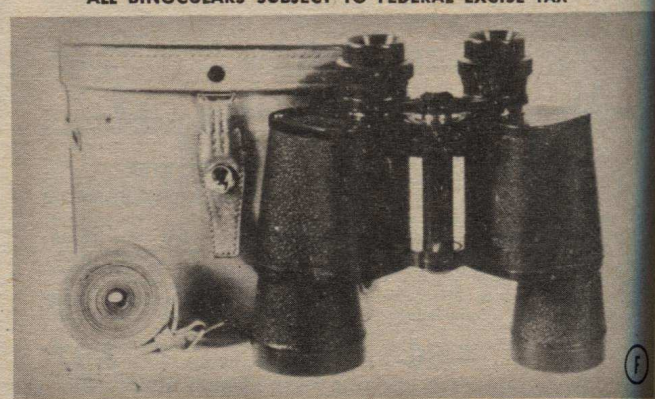

(B) TASCO 6x30 "ST. LOUIS" BINOCULARS—ZEISS STYLE
 Compact, light in weight (16½ oz.), and small (4½" high) with magnesium fluoride coated lenses. Gives clear 6-power magnification. Objective lens . . . 30mm. Linear Field: 420 ft. at 1,000 yards. Preferred by hunters and bird watchers, ideal for following fast action of sports. Popular with women, too, for its compact size makes it convenient to slip into bag or suit pocket. With plush-lined genuine pigskin leather hardcase with straps.
Tasco 6x30 "St. Louis" with Individual Focus. Retail 25.00. **17.50**
12CTASCO-2. Dealer's, Each Net.

(C) TASCO 7x35 "MIAMI" BINOCULARS SUPER WIDE ANGLE B & L STYLE
 A magnificent, *super wide-angle* imported binocular that's only 5" high. Made with special prism, lenses, etc., to give the field of view of approximately 580 feet at 1,000 yards . . . nearly twice that of the average binocular. Magnification 7 times. Coated 35mm lenses, 11.0 point angle of view. Particularly popular with football and athletic coaches for it gives not only a brilliant image, but an exceptionally wide field of view. B & L Style. Center focus only. With plush-lined, genuine pigskin leather hardcase with straps.
Tasco 7x35 "Miami" with Center Focus. Retail 54.50. **38.15**
12CTASCO-3. Dealer's, Each Net.

(D) TASCO 7x35 "ATLANTA" BINOCULARS—ZEISS STYLE
 One of the most popular binoculars made! Prismatic, precision made, and with coated lenses. Magnification 7 times. Objective lens 35mm. A medium sized perfectly balanced, compact instrument . . . only 5½" high. For general all around use . . . for vacationists, sports lovers, yachtsmen. Has power to bring in a brilliant enlargement. Linear field: 358 feet at 1,000 yards. With plush lined, genuine pigskin leather hardcase with straps.
Tasco 7x35 "Atlanta" Individual Focus Binoculars. Retail 28.80. **20.16**
12CTASCO-4. Dealer's, Each Net.
Tasco 7x35 "Atlanta" with Center Focus. Retail 32.80. **22.96**
12CTASCO-4A. Dealer's, Each Net.

(E) TASCO 8x30 "SAN FRANCISCO" BINOCULARS—ZEISS STYLE
 Small, compact, and light in weight . . . only 4½" high, weighs only 16½ ozs. Prismatic binocular with magnesium fluoride coated lenses. Gives clear 8-power magnification. Linear Field: 393 feet at 1,000 yards. For viewing at medium range and for following fast action, as in sports, birds on the wing, etc. Here's tremendous power packed into a small binocular. With plush-lined genuine pigskin leather hardcase with straps.
Tasco 8x30 "San Francisco" with Individual Focus. Retail 28.34. **19.83**

TASCO

IMPORTED PRISM BINOCULARS

IMPORTED PRISM BINOCULARS Sensationally Low Priced

TASCO . . . one of the finest and most accurate prismatic binoculars available. Imported from one of Japan's most modern factories where they are scientifically made by skilled mechanics, assembled, and then checked to meet the most rigid specifications. It's hard to find a better binocular . . . at such unheard of low prices.

JUST LOOK AT THESE QUALITY FEATURES!

- Long-range viewing with pin-pointed vision
- Five 1/1000,000 of an inch thick lens coating
- Hard fluoride is applied to glass surfaces to increase light transmission, reduce reflection and cut light loss
- Means image contrast is increased

BEST OF ALL, each Tasco binocular comes complete with a genuine leather, plush-lined hardcase with straps, and packed in a handsome gift box.

YOU CAN'T BEAT A BETTER VALUE THAN THIS!

Tasco

BINOCULARS Imported from Japan

TASCO 7x50 "NEW YORK" BINOCULARS—B & L STYLE

(A) One of the finest, most accurate imported prismatic binoculars available, giving long range viewing with pin-point vision. Designed originally for naval use, with wide objective lenses, 50mm, that give brilliant 7 times magnification over entire field of view—376 feet at 1,000 yards. Relative brightness, 50.4, highest in the luminosity table, Magnesium fluoride coated lenses. Fine performer under poor light conditions. Standard American 1-piece style. With plush-lined, pigskin case. Center focus only.

Tasco 7x50 "New York" with Center Focus. Retail 47.24. **33.07**
12CTASCO-9. Dealer's, Each Net.....

TASCO 16x50 "WASHINGTON" BINOCULARS—ZEISS STYLE

(B) Powerful prismatic binoculars for extremely long-range observation. Only 7/4" high. Gives clear, bright, full magnification of 16 times. Coated lenses with objective lens of 50mm. Linear Field: 183 feet at 1,000 yards. For explorers, rangers, star gazers, mariners. Only 26 oz. With plush lined, genuine pigskin leather hardcase with straps.

Tasco 16x50 "Washington" with Individual Focus. Retail 41.12. **28.78**

Linear Field: 260 ft. at 1,000 yards. Ideal for both indoor and outdoor use . . . especially popular with women. With plush lined genuine pigskin leather hardcase with straps. Center focus only.

Tasco 8x20 "Philadelphia" with Center Focus. Retail 28.80. **20.16**
12CTASCO-10. Dealer's, Each Net.....

HERE'S WHAT BINOCULAR TERMS MEAN

- INDIVIDUAL FOCUS** . . . means focusing separately for each eye by rotating eyepieces.
- CENTER FOCUS** . . . means that both barrels of the binocular focus simultaneously to correct the user's differential by means of a center wheel.
- NUMBERS MEAN** . . . take 7x50 for example. The first number (7) indicates number of magnifications over naked eye viewing. The second number (50) gives diameter of objective lens (one nearest object) in millimeters.

PALOMAR IMPORTED BINOCULARS

Known the World over for optical precision and great durability, **PALOMAR Binoculars** are designed and made with traditional skills based on long experience. You can expect complete eye-ease and perfect viewing due to precise alignment and mechanical precision. This built-in optical quality results in crisp, clear images, true color rendition and sharp, enlarged 3-dimensional vision of distant objects and action. All optical elements are made

of the finest optical glasses, ground and polished to microscopic tolerances. Anti-reflection, double coating improves optical efficiency by greatly reducing glare and properly increasing light transmission.

ALL PALOMAR BINOCULARS come in smart-looking, top grade pigskin case—plush lined and with straps. They are serially marked for insurance and registration purposes . . . each vital part inspected

for perfect performance. **Also included:** Written Guarantee; Written Inspection Report; Specially treated lens wiping cloth; Lens Protectors; Distinctive Gift Box.

Thalson Company, exclusive importers of **PALOMAR BINOCULARS**, has placed quality above everything else so that each pair of **PALOMAR BINOCULARS** will be worthy of their namesake . . . the great **PALOMAR Observatory**.

Binoculars on This Page Subject to F.E.T.

HOW TO SELECT A BINOCULAR...

Which glass is recommended for what purpose?

- For the theatre and indoor use, 2½x—3x Opera Glasses.
- For sporting events, 3x—4x Field Glasses.
- For hunting, outdoors, mountains, 6x30—8x25—8x30—7x35.
- For marine and night use, 7x50 (preferably individual focus).
- For high mountains, distant viewing, 10x50—15x50—15x56—20x56.

What does 6x30, 8x30, etc., mean?

The first number indicates the magnification. (The number of times the object appears closer to the naked eye). The lowest magnification adequate for the purpose is usually the best choice. The second number gives the diameter of the objective lens (closest to the object) in millimeters (25mm=1 in.). The size of this lens determines the light gathering capacity and the brightness of the image.

What is coating?

This is a process whereby a very thin coating of special transparent magnesium flouride is applied to the air-to-glass surfaces of the optics. This increases transparency as much as 50%.

What determines the field of view?

This depends partly on the magnification (the larger the magnification, the smaller becomes the field of view), on the ocular system, and partly on the size of the prisms. Standard view binoculars have a 2-lens ocular system—the ocular and the field lens. True wide angle binoculars have a complex and costly ocular system, in addition to oversized prisms; hence, a truly wide field is found only in expensive glasses.

Individual or Center Focus, which is best?

Center focusing brings the object into focus by first setting the right eyepiece and then adjusting the centerwheel. Individual focus requires each eye to be focused separately. The choice between one or the other type is mainly one of personal preference. Individual focus usually is preferred for high power glasses and the military. Hunters, naturalists and the average user prefer the center focus mechanisms as they are easier to manipulate. As a rule, the individual focus glass is a must where moisture or sea air is around.

SWIFT & ANDERSON BINOCULARS

SWIFT & ANDERSON BINOCULARS have features which are exclusive. All glasses have hard Ve-coating on all air-to-glass surfaces of lenses and prisms. Fitted with convertible bayonet type eyecups which when detached leave flat eyecups for eye glass wearers. Ocular system is engraved on the objective ring showing the power, the number of lenses in the ocular system and relative light efficiency. Informative booklet on care and use of binoculars is included along with pigskin carrying case. Gift boxed. Made in Japan.

A SWIFT & ANDERSON "SPORT KING" 7 X 35 CENTER FOCUS BINOCULARS
 Extreme wide field of view for spotting and following fast moving objects. A first class binocular for any general purpose. Seamless aluminum monobloc body. Sealed against moisture and dust. Field of view 525 feet at 1,000 yards. Relative light efficiency 37.5. Exit pupil 5mm. Five lens ocular system. Diamond finish on diopter rings. Bayonet double eyecups. Engraving on objective caps. Height open 5.2 in., closed 5 in. Binocular weight 30.7 ozs. Complete with plush-lined pigskin carrying case, wt. 14.8 ozs. Retail 75.00. 13CSA-704. Dealer's, Each Net..... **42.25**

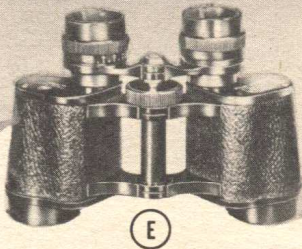

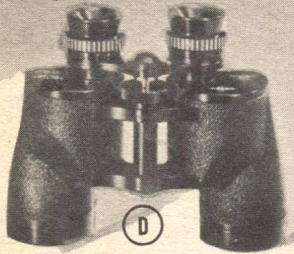

B SWIFT & ANDERSON "RAINIER" 10 X 50 CENTER FOCUS BINOCULARS
 Designed for use with a tripod or other solid support but they can be hand held if solid support for elbows or instrument itself is available. This big binocular gives you power to see, at long range, such details as bird markings, names of yachts and ships, craters of the moon, satellites, and so on. Field of view 279 feet at 1,000 yards. Relative light efficiency 37.5. Exit pupil 5mm. Four lens ocular system. Diamond finish on diopter rings. Bayonet double eyecups. Engraving on objective caps. Binocular weight 35.8 ozs. Height open 7 in., closed 6.7 in. Complete with plush-lined pigskin carrying case, wt. 14.8 ozs. Retail 59.50. 13CSA-765. Dealer's, Each Net..... **33.73**

C SWIFT & ANDERSON "NIGHTHAWK" 7 X 50 CENTER FOCUS BINOCULARS
 Basic naval binocular with maximum brilliance for dawn to dusk lighting conditions and even moonlight visibility. Sealed against moisture and dust. Field of view 376 feet at 1,000 yards. Relative light efficiency 76.4. Exit pupil 7.14mm. Diamond finish on diopter rings. Bayonet double eyecups. Engraving on objective caps. Binocular weight 35.5 ozs. Height open 7.3 in., closed 7 in. Complete with plush-lined pigskin carrying case, wt. 16.6 ozs. Retail 54.00. 13CSA-788. Dealer's, Each Net..... **30.70**

D SWIFT & ANDERSON "TRITON" 7 X 35 CENTER FOCUS BINOCULARS
 A sportsmen favorite because of its 7-power magnification, yet compact and light in weight, only 22 ozs. Field of view 367 feet at 1,000 yards. Relative light efficiency 37.5. Exit pupil 5mm. Diamond finish on diopter ring. Bayonet double eyecups. Engraving on objective caps. Height open 5.3 in., closed 5 in. Complete with plush-lined pigskin carrying case, wt. 10.6 ozs. Retail 48.45. 13CSA-748. Dealer's, Each Net..... **27.65**

E SWIFT & ANDERSON "GRAND PRIX" 8 X 30 CENTER FOCUS BINOCULARS
 Especially well constructed glass for open field sportsmen and tourists. Sealed against moisture and dust. Bayonet double eyecups. Field of view 393 feet at 1,000 yards. Relative light efficiency 21.1. Exit pupil 3.75mm. Five lens ocular system. Diamond finish on diopter rings. Engraving on objective cap. Binocular weight 19.5 ozs. Height open 4.8 in., closed 4.6 in. Complete with pigskin carrying case, wt. 9.8 ozs. Retail 42.50. 13CSA-716. Dealer's, Each Net..... **24.38**
