NO. 116 BOLD VENTURE 7x35mm

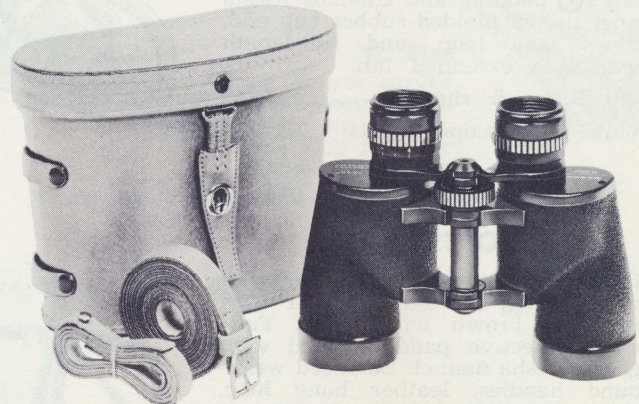

Wherever the action may be . . . at sporting events, hunting or enjoying the great outdoors, you'll see it all with rapid, accurate spotting when you use the Bold Venture. Hi-speed focusing and clear, brighter-than-ever images are at your fingertips. Lighter, stronger magnesium body. Adapts to camera tripod. Handsome leather case. Gift boxed.

NO. 112 COMPANION 7x25mm

More ounce-by-ounce value than any other!

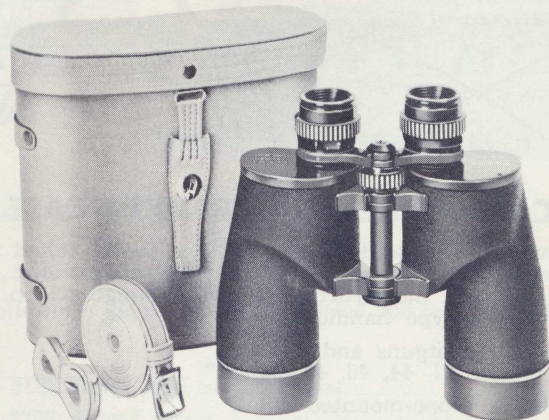

This featherweight beauty offers a wonderful combination of wide angle viewing and ease of handling. So light, you hardly know you're holding them! They're a joy to use, with fast focusing and clear sharp-to-the-edge images. Adapts to camera tripod. Leather V-cut case. Gift boxed.

NO. 210 HORIZON 7x35mm

An all-around companion wherever you go!

These highly efficient binoculars are at home wherever you are . . . at the track, in the field or on the road. A clear 400-ft. wide view with fully coated lenses. Leather case. Gift boxed.

NO. 214 BOUNDLESS 7x50mm

For sharp, crystal clear images!

A real masterpiece for the sportsman, birdwatcher and outdoorsman! Large 50mm lens lets you see objects with brightness and clarity, even under adverse lighting conditions! The lightweight magnesium body is beautifully designed in the classic American style, with camera tripod adapter. Leather case. Gift boxed.

Guarantee

All TASCO instruments bear the TASCO Seal of Approval, which is your guarantee that they are free of any defects in regards to material used, as well as workmanship.

Should any TASCO instrument prove to be defective by reason of material or workmanship, it will be repaired without charge or replaced. When your instrument is not in use, always keep it protected.

Guarantee is always valid, the only exception being if the instrument has been abused, or tampered with in any way.

- Accurate, guaranteed windage and elevation adjustment
- Target and crosshair are clear and sharp at any power—never blurred

REDFIELD SCOPES AND MOUNTS

2X-7X Variable

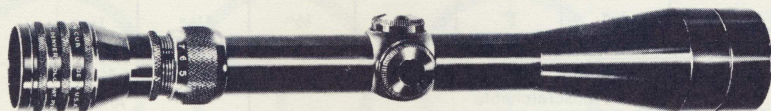

An exciting new model... one for the Sportsman wanting the advantages of a Redfield Variable in a small scope. Completely new compact variable suitable for a wide range of hunting conditions and especially for normal scoped-rifle saddle scabbard. Provides a wide 44' field of view at low power. Has all of major features in 3x-9x Redfield Variable.

With regularly available crosshairs: Medium ("MCH") 1 1/2" at 2x, 1/2" at 7x; or fine ("FCH") 0.60" at 2x, 0.20" at 7x; or at \$9.00 additional Post and Crosshair; or Dot 3" at 2x, 1" at 7x.

\$94.50

3X-9X Variable

This original Redfield Variable has now been so widely used that its full range of power and its remarkable dim light characteristics are authenticated by leading competitive shooters and gun writers. 9x is about the maximum power you can hold in field shooting positions, yet at 3x, the large objective gathers maximum light, giving you the very best in dawn or dusk performance—even when your eye alignment isn't perfect, as in an awkward position quick shot.

3x-9x—\$99.50 regularly available with standard crosshairs: Heavy ("HCH") 1 1/2" at 3x, 1/2" at 9x; Medium ("MCH") 1" at 3x, 1/2" at 9x; Fine ("FCH") 3/4" at 3x, 1/4" at 9x; or at \$9.00 additional; Post and Crosshair; or Dot 3" at 3x, 1" at 9x.

\$99.50

REDFIELD 2 3/4 X

\$49.50 with crosshair or post and crosshair

Widest field of view and greatest image brightness for dawn and dusk shots. "First Choice" of timber and brush country hunters the world over. Wide field makes quick sighting easy even at point-blank range.

REDFIELD 4X

\$59.50 with crosshair or post and crosshair.

The all-around scope most experienced hunters prefer. Ideal for longer open-range shots where hunters have more time to aim. Power enough for varmint hunting, yet offers a wide enough field for brush shooting.

REDFIELD 6X

\$79.50 with crosshair or post and crosshair.

A deluxe rifle scope for open country, or varmint shooting. Ideal for western antelope hunting. Six power avoids excessive mirage problems. Nothing in its magnification range has more brilliance or clarity of image.

MB

REDFIELD STreamline JR Mounts

JR-STR STreamline

Steel 1-piece base

Base Only \$7.50

Redfield answers the demand for streamlined beauty and durability in scope mounts that will enhance the beauty of your rifle. They are guaranteed not to snoot loose. Mount and exterior rings are refinished in gleaming black to match Redfield scopes. Interior rings have slipproof friction fit. Experts recommend Redfield Mounts for all American or imported scopes with internal adjustments.

Redfield STreamline Split Rings

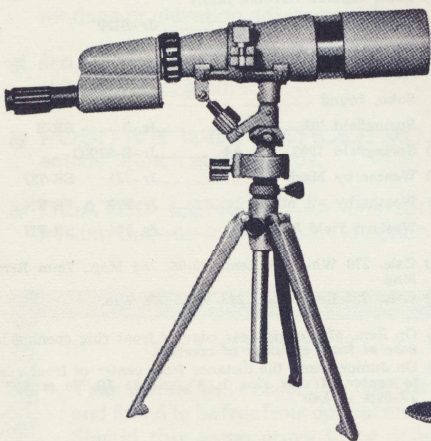

JR-STR low height (1") . . . pr \$14.50
JR-STR med. height (1") . . . pr \$14.50
JR-STR high height (1") . . . pr \$14.50

Low Height, .142" (normally for scopes up to 1.9" objective diam.)

Medium Height, .272" (normally for scopes 1.9" to 2.2" objective diam.)

High Height, .402" (normally for scopes 2.2" to 2.5" objective diam.)

NEW 2 3/4 X AND 4 X SPORTSTER SCOPES

Here are the newest additions to the Redfield family of fine scopes — a pair of slim, trim, compact scopes with rugged 3/4" diameter tubes! Both scopes . . . 2 3/4 X and 4 X . . . are sleek, attractive, precision-made instruments. Never before have Redfield fixed power scopes been so versatile! By selecting one of *two approved mounting methods, scopes can be quickly and easily attached to a .22 caliber or high power rifle using Redfield JR bases. Either scope, 2 3/4" X or 4X . . . \$34.95

IMPORTANT!

These American Quality-Crafted Redfield scopes are carefully engineered, faultlessly constructed. They were NOT designed specifically as .22 scopes, but are made to take the recoil of heaviest rifles!

*For High Power: These beautiful new scopes may be mounted with Redfield 3/4" Steel Rings . . . identical, except in sizes, to standard 1" split rings. Precision-crafted dovetail arrangement will fit all Redfield JR bases.

3/4" Steel Split Rings . . . pair \$10.00

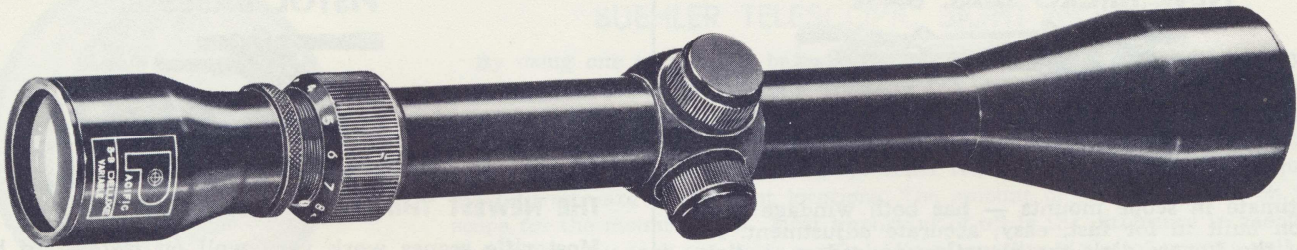

2-Piece Ring Mount for grooved .22's \$5.95

PACIFIC RIFLE SCOPES

RETICLES

Crosshair

Post and Crosshair

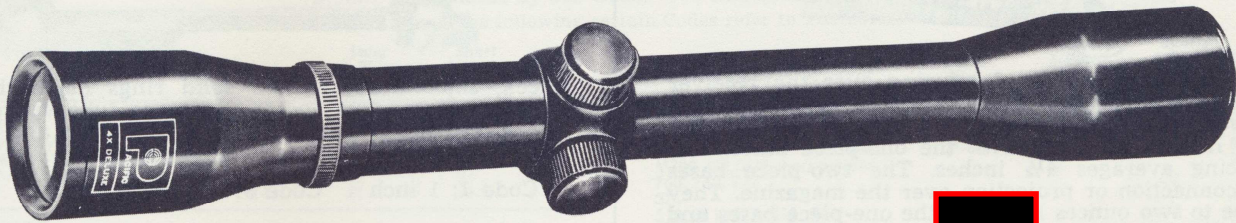

Dot and Crosshair

All Pacific Scopes are available with your choice of these three reticle designs—at the same low price.

3-9X DELUXE VARIABLE

Split-second adjustment to meet all shooting requirements. Powerful 9X magnification lets you spot that trophy head and gives you maximum accuracy at long range. Wide field of view and tremendous light-gathering ability at 3X magnification for shooting in wooded areas or in limited light. Brilliant clear optics at all powers. Size of reticle remains constant at all power settings. Parallax corrected at all powers.

3-9X DELUXE VARIABLE RS-9..... **\$49.95**

- **SHOCK-PROOF CONSTRUCTION** – Undisturbed by heaviest magnum recoil.
- **SPECIAL SUPER-TOUGH EXTERIOR FINISH** – Resists chipping and scratching under the most rugged conditions.
- **NITROGEN FILLED** – For complete freedom from interior fogging.
- **IMAGE MOVING** – Crosshair always centered regardless of windage or elevation adjustment.
- **PARALLAX CORRECTED** – Sight in faster and get consistently tight groups.
- **POSITIVE ¼-IN. RETICLE ADJUSTMENT** – 1 click equals ¼-inch at 100 yards.
- **COATED LENSES** – All lens surfaces coated with magnesium fluoride to eliminate reflection and glare.

4X DELUXE

Designed especially for the hunter who wants a rugged, fixed-power scope. The reasonable cost of the Pacific 4X Deluxe makes it an outstanding choice when compared with other quality scopes of the same power. Rugged shockproof construction assures you of always being ready for the next shot even under the most difficult hunting conditions.

4X DELUXE RIFLE SCOPE RS-4..... **\$29.95**

PACIFIC'S GUARANTEE

Your Pacific Rifle Scope has been thoroughly inspected and found to be free from optical and mechanical defects. Should this scope prove to be defective by reason of workmanship or material, it will be repaired free of charge or replaced. This guarantee is void if the scope has been abused, dismantled or in any way tampered with.
