Our Dear Friend:

We feel proud to say that the year 1973 was indeed an exciting year for us; the phenomenal rise in the volume of business handled by our company has far surpassed our predictions. We should like to take this opportunity to thank each and everyone of our friends who have directly or indirectly made contributions to our success.

However, we have no intention to let success dazzle our performance. Instead we pledge to serve you still better by putting out a new catalog for the year 1974 — and we continue to do so each year — as a token of our appreciation of your kindness. In this catalog you will find many new items to replace the old ones in accordance with our policy of bringing to you the latest information on the newest and the best products handled by our Mail Order Department.

Once again may we draw your attention to that fact that all our prices INCLUDE sea mail shipment as well. This is meant for saving your valuable time on unnecessary calculations. Please note that other firms, on the other hand, add extra charges — usually 10% or even more — for shipment on top of their already unreasonably high prices. It is obvious then that our prices are the lowest possible and you are invited to compare our low prices with those of other firms for the items.

If you are new to us we extend to you our warm welcome. You will find yourself among our huge group of discerning friends who have benefited from our personalized service.

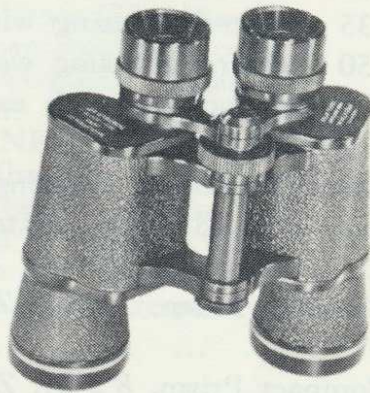

We highly appreciate your suggestions to improve upon our service. the whole purpose of which is none other than SAVING a lot of money for you and making you so satisfied that you will gladly recommend our service to your relatives and friends so that they too can benefit from dealing with us.

Finally may we say "thank you" from the bottom of our hearts for your patronage in the past and assure you of our best service.

Yours sincerely,

.....
The manager.
