Price\$3.95

RADIANT MAGNIFIER

Illuminated 6 power magnifier of chromium plated brass. Focal length 1 3/8" length. 24 diopters. Price\$6.50

HUNTING RANGEFINDER

Look through this precision instrument at object. You see the object double. Turn the dial as you watch both images "zero in" to a sharp image. The dial then shows the distance. Works over land or water, field or hills. Rangefinder is about 95% accurate when readings are averaged to cancel out errors in focusing. Range 20 to 500 yards. 12" long. Deluxe Set also has 5X Telescope Attachment focusing at longer ranges and Leather Ho Model 500T shown.

- Price: Model 500T—Deluxe\$.....

POCKET-SIZE 13 TO 250 YARD MODEL

Operates same as above but for ranges from 13 to 250 yards. Only 8 1/2" long. Deluxe Set contains 2 1/2X Telescope Attachment and Leather Holster.

- Price: Model 250\$.....
- Price: Model 250T\$.....

BAUSCH & LOMB "BALSCOPE TWENTY"

The special methods developed to attain high quality and low cost of the Balscope have been used to make a "big brother" to the power telescope. This telescope is excellent for the hand gun target shooter (it fits standard pistol cases), bird students, inspection of structures and all long distance viewing. However, it will focus as close as 15 yards. Focusing is done by a single turn of the eyepiece. Body is die-cast aluminum, length 15 3/8", weight 22 ounces. All lenses are anti-reflection coated. The objective is 40mm and the field of view is 100 feet at 1000 yards. A tripod lug is built into body.
