226 £5 Deposit and £3 Monthly

£29.10.0. A Zeiss Model with an 8x magnification, 40mm. object lens. The name Zeiss on any Binocular has always proved to be the hall mark of quality. This model has a large field of view with the popular independent Eye Piece Focussing, optically, scientifically perfect; the ideal glass for all round purpose. Complete with case, sling and Lanyard.

227 £3 Deposit and £2 Monthly

£19.19.0. U.S.A. Officers Lightweight Prismatic Binoculars by the famous American scientific manufacturers "Mirocular." These glasses are the only type in existence which actually weigh one-third the usual weight, yet are the same size; wide field of vision with super clarity; 8x30 magnification. The factory have now stopped making these special glasses as they incorporate several special processes for weight elimination that does not pay for manufacture for ordinary civilian use, so you will possess an original scientific super glass that will give you a first-class performance.

228 36/6 Deposit and 25/- Monthly

£11.19.6. A very special German made Prismatic Binocular which embodies all the fine features of Prismatic Binocular craftsmanship; special hand ground and hand polished Acromatic Prism and Lenses with perfect definition; specially made for long range work; extensively used for spotting. £15.19.6. A powerful pair of French Glasses by Riviera. 10x35 magnification. An outstanding glass for holiday makers requiring a combined effect of high power and wide field of view, with quick centre focus combining an ultra Micrometer Eye Piece ensuring perfect clarity. Specially recommended for day or night use. We recommend this glass to the most fastidious as it is a perfect scientific instrument. Complete with case, sling and lanyard.

231 39/6 Deposit and 27/6 Monthly

£13.13.0. By Negretti & Zambra. These glasses are not mass-produced but individually manufactured, consequently they are mathematically true and perfectly poised having a wide field of vision with perfect clarity and very deep penetration. Bending bar for eye adjustment, centre screw focussing with Independent Eye Piece focussing. A popular 8x30 magnification. These glasses are assured to give you satisfaction. Complete with case and sling.

232 45/- Deposit and 30/- Monthly

£13.13.0. By Norvex. 8x30 Prismatic. This is the popular naval type Prismatic Binocular which enables you to pin-point objects at great distance. Amazing clarity and definition and used extensively for Day and Night. The angular bending bar has a bearing covering a wide field of view. Centre wheel focus with independent eye piece, assuring co-ordination of both eyes. Complete with case and sling.

233 35/- Deposit and 23/6 Monthly

£11.12.6. These glasses are 1949 model specially made for Ladies handbags, or Gents hip pockets. The size is only 4½ins. x 3ins. and needless to say of extremely light weight for field, marine, theatre or any holiday use. These amazingly small powerful Prismatic Binoculars actually have a 6x magnification 30mm. object lens. The brilliance of definition and clarity of the object is truly amazing for a Prismatic glass of this size, yet you have to buy the glass to prove its fine quality in comparison with a large type of prismatic. Complete in pouch case.

234 50/- Deposit and 38/6 Monthly

£15.15.0. By Barr & Stroud. A really fine pair of Prismatic Binoculars that are finely balanced, having an outstanding clarity of view, and large ocular lens. The Barr & Stroud quality assures you of every satisfaction and for all round purposes this 6x30 model with Independent Eye Piece Focus will assure you of much pleasure over many years. Complete with case and sling.

235 29/6 Deposit and 20/- Monthly

£9.10.0. A superior model, lightweight Prismatic Binocular. Magnification of this glass is 8x32. Specially easy marginal bending bar assuring perfect angle of vision. Centre screw focus with adjustable eye piece. Guaranteed perfect clarity. The field of view at 1,000 yds. is 105 yds. This binocular is very light in weight and comes to you complete with case and sling. We can recommend this inexpensive model as superb in value.

236 50/- Deposit and 40/- Monthly

£16.16.0. This Zeiss model has the popular magnification of 8x30. All these Zeiss glasses were purchased by the Ministry during the war for distribution to high ranking Officers for all round use. We highly recommend this model. Its value is unsurpassed; will not be repeated after this stock is sold. Independent Eye Piece Focus, guaranteed perfect in every respect. Complete with case and sling.

237 £3 Deposit and £2 Monthly

£18.18.0. Super Quality "NL" Prismatic Binoculars. Magnification 7x50 with tabled independent eye piece, bending bar giving wide angle view with perfect clarity. These glasses have the extra addition of being able to see almost one half of a bearing at a glance. The lenses are specially treated so that perfect viewing is obtained both by day and night. Exceedingly light for their size and are easily handled. Complete with case & sling.

238 52/6 Deposit and 35/- Monthly

£16.16.0. The very latest prismatic binocular by the famous House of Colmont. This glass has a 10x40mm. magnification. Extra wide field of view is focussed by centre screw and an adjustable eye piece. These glasses are accurately made and are almost dust and damp proof, thus assuring a perfect clarity of vision over a great number of years before requiring to be cleaned. Complete with case and sling.

239 39/6 Deposit and 25/- Monthly

£10.10.0. A special issue to U.S. Army Signal Corps. These famous binoculars by Bausch & Lomb are scientifically manufactured to give absolute clarity of vision and perfect definition under any climatic conditions. Independent Eye Piece Focus, 6x30 magnification. Wide angle of view; a glass specially suited for Racing, Sports or Marine. Complete in case and sling.

240 25/- Deposit and 16/6 Monthly

£8.12.6. The Prism Binoculars have a rare magnification of 6x24. Special quick action bending bar assures you of a precise field of vision. The lenses are specially ground to enable particular clarity in failing light and are considered excellent value. Complete in case with lanyard and sling.

241 25/6 Deposit and 19/6 Monthly

£9.12.6. Wide field of view is the special quality of this particular Binocular, mainly due to the extra brilliance of object reflection, improving poor visibility in failing light or mist. These glasses have magnification 8x30mm. Centre Screw Focus, and with the necessary adjustable eye piece, ensuring complete clarity of vision. Exceptional bargain. Complete with case and sling.

242 42/- Deposit and 28/6 Monthly
