

"HURRICANE HORIZON" SERIES

Excellent performance at moderate prices. A full line of prismatic binoculars covering every practical use. Complete with deluxe case, straps, lens cloth and caps, and Multicolor Gift Box.

No. 64, 6 × 30 Center Focus

A Six Power all purpose model, especially suited to the general use owner. Performs beautifully yet light in weight and easy to handle.

No. 36, 7 × 35 Center Focus

The accepted favorite as the best all around size. Seven power magnification. A leading choice for the sportsman, traveler, and spectator sports fan.

No. 76, 7 × 50 Center Focus

Designed to gather light under even the poorest conditions. Ideal for navigational and night use as well as "sky" viewing. Seven Power with 50 mm objectives.

No. 84, 8 × 30 Center Focus

Full Eight Power magnification. A fine selection for the hunter or nature studier. Excellent for long range viewing.

No. 16, 10 × 50 Center Focus

Long range and navigational uses are easy with a full Ten Power and a light gathering 50 mm objective.

MB

W-I-D-E ANGLE

No. 42, 7 × 35 Center Focus, Wide Angle

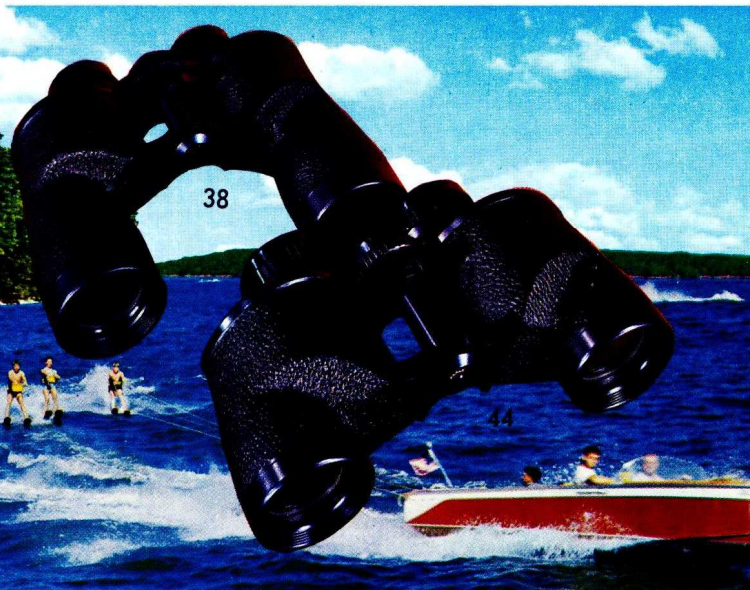

Spectator sports fans and travelers alike agree the extra wide field (525' @ 1000 yards) coupled to Seven Times magnification is unbeatable. Perfect definition.

No. 44, 7 × 35 Center Focus, Wide Angle

The widest viewing field obtainable. (578' @ 1000 yards.) 55% more field of view than standard frame binoculars. Following fast action or covering a big area, this is the choice.

No. 38, 7 × 35 Center Focus

American styling and Seven Power magnification combine to render great all around performance. A fine selection as a general use binocular.

HORIZON

zoom

No. 70V, 7-12 × 40 Center Focus—Variable Power

Variable Power at your fingertips. Adjust the power control anywhere from 7 to 12 times magnification. Great performance when detail is important.

No. 702V, 7-12 × 40 Center Focus "ZOOM"

A coupled power selector allows you to "zoom" from 7× to 12× in a moment, and right back again. For all around use, this model cannot be surpassed.
