MOHRSON PRISM BINOCULARS

Eight Power

No. 1643 Diameter of Objective Lenses 26 millimeters.

No. 1599 Diameter of Objective Lenses 34 millimeters.

MOHRSON eight power Prism Binocular with 26 millimeter objective lenses can be used for any purpose where great magnification and clearness of definition is necessary. Light in weight and compact, strong and durable. No glass can be more highly recommended at this price.

SPECIFICATIONS

No. 1643 Magnification eight times. Diameter of Objective Lenses 26 millimeters. Size $4\frac{1}{4}$ x $5\frac{3}{4}$ inches. Weight 19 ounces. Complete in Tan Leather Case with Strapseach **\$25.00**

MOHRSON eight power Prism Binocular with 34 millimeter objective lenses is the same type of glass as the regular eight power model with the exception that it is made with larger objective lenses, thereby giving it the advantage of producing a better illuminated image under unfavorable light conditions.

No. 1599 Magnification eight times. Diameter of Objective Lenses 34 millimeters. Size $4\frac{5}{8}$ x $6\frac{1}{2}$ inches. Weight 27 ounces. Complete in Tan Leather Case with Straps.....each **\$40.00**

MOHRSON PRISM BINOCULARS
Eight Power
DE LUXE MODELS

No. 1630 Diameter of Objective Lenses 26 millimeters.
No. 1631 Diameter of Objective Lenses 34 millimeters.

MOHRSON eight power Prism Binoculars, DeLuxe Models, have almost the same specifications as the regular eight power models. They are equipped with the new type large eye-pieces which have been adopted by most progressive European manufacturers as an improvement in design.

SPECIFICATIONS

No. 1630 Size $3\frac{7}{8}$ x $5\frac{3}{4}$ inches. Diameter of Objective Lenses 26 millimeters. Complete in Tan Leather Case with Straps.....each \$30.00

The outstanding feature of the No. 1631 DeLuxe Model is its extremely large field of view, which is combined with good light power. It is particularly suitable for marine use, night and astronomical uses, for rounding up cattle and for touring.

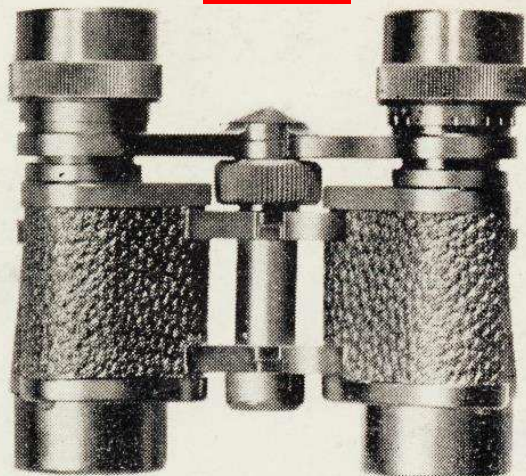

SPECIFICATIONS

No. 1631 Size $4\frac{5}{8}$ x $6\frac{1}{2}$ inches. Diameter of Objective Lenses 34 millimeters. Complete in Tan Leather Case with Straps.....each \$45.00

MOHRSON PRISM BINOCULAR

Eight Power

SPORT MODEL

Diameter of Objective Lenses 24 millimeters.

MOHRSON 8 x 24 Prism Binocular is the same in style and finish as the larger models. It is smaller, however, and more compact making for convenience in carrying. As a companion to hunter or tourist it is without an equal. It may be used to advantage for any purpose where small size and strong magnification are necessary.

SPECIFICATIONS

No. 1645 Magnification eight times. Diameter of Objective Lenses 24 millimeters. Size $3\frac{3}{4}$ x $3\frac{1}{2}$ inches. Weight 11 ounces. Complete in Tan Leather Case with Strapseach **\$35.00**

Prism Binoculars are indispensable for marine use, hunting, rounding up cattle, touring, for forest rangers, surveyors, engineers and army and navy use, in fact for all purposes where the pleasure of outdoors depends upon good vision.

MOHRSON PRISM BINOCULAR

Ten and Twelve Power

MOHRSON Prism Binocular 10 x 32 millimeters differs slightly in appearance from the regular models. The magnification 10 times is of advantage when used over long distances. It is well made and nicely finished.

SPECIFICATIONS

No. 1602 Magnification ten times. Diameter of Objective Lenses 32 millimeters. Size 5 x 6 inches. Weight 20 ounces. Complete in Tan Leather Case with Strapseach \$37.50

MOHRSON Prism Binocular 12 x 45 millimeters is very much the same in appearance as model No. 1602. Owing to the large objectives, 45 millimeters, and exceptional magnifying power, this glass is wonderfully efficient. The ordinary field glass has a magnifying power of about four diameters, while this binocular has a magnifying power of twelve and is no larger than the regular type field glass. The definition is remarkably sharp and clear and the large objective lenses afford abundant illumination under all conditions.

SPECIFICATIONS

No. 1600 Magnification twelve times. Diameter of Objective Lenses 45 millimeters. Size 5³/₄ x 6³/₄ inches. Weight 31 ounces. Complete in Tan Leather Case with Strapseach \$47.50

MOHRSON FIELD GLASSES

MB

Field Glasses, reasonably priced and of good quality are always in favor. Contrary to the general idea, it is not necessary to use a large Field Glass to obtain satisfactory results as small glasses with powerful lenses will give good magnifying power. Although not as powerful as Prism Binoculars they are indispensable where ordinary magnification is desired.

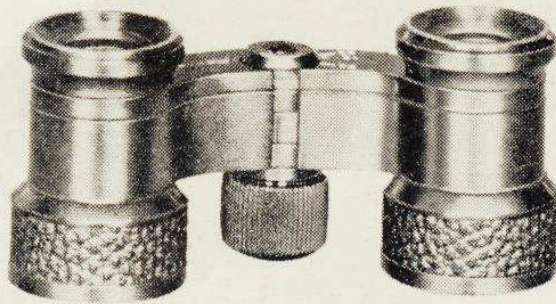

Our assortment of Field Glasses consists of a variety of models from the most inexpensive to the best. We are listing a few styles which can be recommended as dependable values moderately priced.

- No. 1604-19 Lignes, Objective Lens $1\frac{11}{16}$ in.

*Eleven Lignes are equivalent to one inch.

MOHRSON SPORTGLASS

Handy, Compact and Adjustable

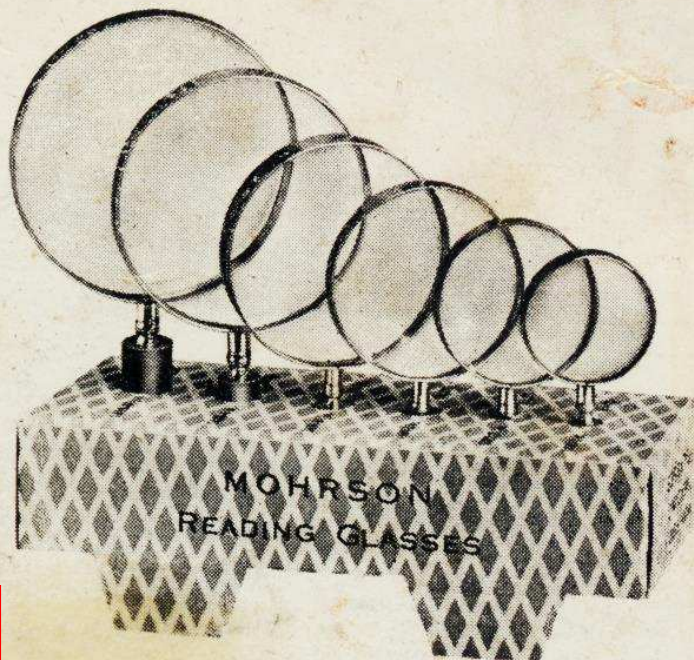

The Sportglass is so compact and has such a wide range of uses, due to the excellence of its lens system, that it can be used for any purpose where good magnification is desired, either outdoors or at the theatre.

When the use of an Opera Glass is found desirable it is not necessary to carry a large heavy glass as the weight has been reduced by the improved construction of this modern glass.

It is small and convenient to carry, adjustable for different pupillary distances and has large lenses, giving clear definition with strong magnification. Size 4 x 1 $\frac{5}{8}$ inches. Weight 5 ounces. Complete in Soft Leather Case.
