EXCITING STEREO

Stereo gives you incomparable realism!
It's the perfect family gift... makes memories that really "live" on and on.

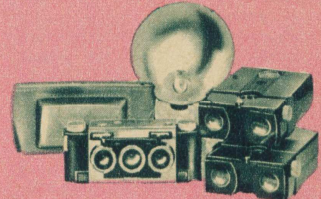

KODAK STEREO CAMERA is budget-priced, top-quality instrument. **LENSES:** matched f/3.5 Anaston. **SHUTTER:** Kodak Flash 200 Dual; 4 speed settings; M-F-X flash synchronization. Built-in spirit level in viewfinder; easy loading with automatic film take-up; quick rewind with fold-out crank; automatic or manual shutter settings; double-exposure prevention with provision for multiple exposures. **\$89.50.** Case, **\$10.25**

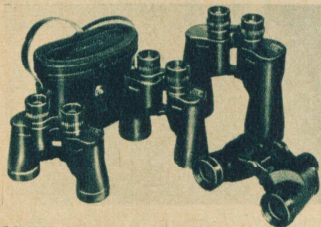

KODASLIDE STEREO VIEWERS. Two superb models. Kodaslide Stereo Viewer I is battery-operated, has focus and interocular adjustments. Kodaslide Stereo Viewer II operates on 110 volts, has color-corrected double-element lenses... focus, interocular, and brightness-control adjustments. Stereo Viewer I, **\$13.75;** Converter with rheostat, lamp, cord, **\$6.50;** Stereo Viewer II, **\$25.50**

STEREO REALIST cameras and viewers for exciting 3-D photography. Model 1041—matched f/3.5 lenses, centered viewfinder, split-image range-finder, from 1 to 1/150 sec., T&B, flash synch, **\$129.** Model 1042, with f/2.8 lenses, **\$159.** Model D-1041—camera, 2 viewers, flash and case, **\$184.50.** Model E-1041—camera, 2 electric viewers with one Rheostat, flash and case, **\$189.75.** Model D-1042—camera (f/2.8), 2 viewers, flash, case, **\$214.50.** Model E-1042, **\$219.75.** 25mm W.A. Lens for either camera, increases coverage 40%; coated, color-corrected. With case, **\$119.50**

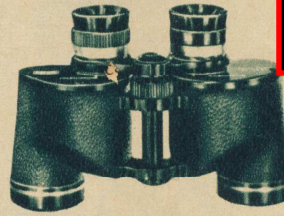

BINOCULARS AND TELESCOPES

CANON BINOCULARS feature the same fine craftsmanship which has established Canon as one of the world's leading manufacturers of quality optical equipment. Barrels are made of anti-corrosive light metal alloy, specially lubricated to resist heat and cold, and treated to prevent fungus. Eyecups permit better viewing for people wearing eye glasses. All models offer central focusing and are complete with cowhide case and strap. 6x30, **\$59.50;** 8x30, **\$69.50;** 7x35, **\$74.50;** 7x50, **\$89.50**

PRECISIONEERED BINOCULARS BY SCOPE, universally distinguished for quality. Written lifetime guarantee assures satisfaction. Fully hard-coated optics with BAK-4 prisms, lightweight magnesium bodies. Furnished with chrome-trim black leather case, sun-haze filters, 2nd pair special eyecups for eyeglass wearers, leather rain guard, lens polishing cloth, adjustable neck strap & collar pad. 7x35, **\$64.95;** 9x35, **\$69.95;** 7x35 Wide Angle, **\$89.95;** 7x50, **\$74.95;** 6x30, **\$54.95;** 8x30, **\$59.95.** All models central focus. Unique grey finish.

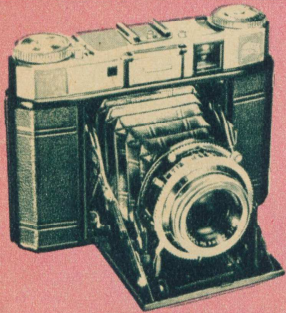

BUSHNELL TRIPLE-TESTED BINOCULARS are a gift any active, fun-loving person would use, treasure and appreciate for years to come. Everything about Bushnells, from SafetyVision optics to Featherlight handling, expresses quality and permanency — yet they're **moderately priced**, with 37 distinctive models ranging from **\$9.95** to **\$135.** Bushnells are backed by a 20-year guarantee and trial exchange privileges, of course. Take a first-hand look at our binocular gift selection, and ask for your **free** gift guide, "How to Select Binoculars."

MB

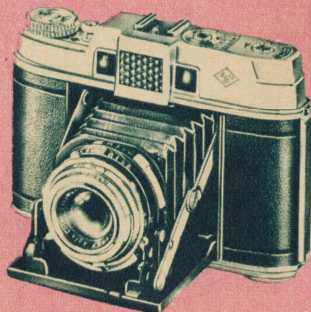

HY-SCORE GOTO 2.4" EQUATORIAL REFRACTOR TELESCOPE. (by S. E. Laszlo). Resolving power 1.93"; focal length 1200mm; f/20 focal ratio. Aberration free for correct point of image. Precision slow motion controls for altitude and azimuth; rack and pinion mechanism. 6x17mm achromatic cross-hair viewfinder. 4 eyepieces 48-200 power; star diagonal; erecting prism; sun glass; wood cabinet; tripod with equipment table and 130 p. manual "Discover the Stars." **\$225.** With Altazimuth mount, 900mm, f/15 focal ratio, 3 eyepieces 45-150 power, and above accessories, **\$125**

FOLDING CAMERAS

ZEISS IKON SUPER IKONTA IV is a roll-film folding camera in the popular 2 1/4" square size. Made with the precision normally found only in miniatures; camera is self-erecting, thus ready for instant action: just press button and lens moves into taking position. Has coupled rangefinder, film transport with positive stop and coupled film counter. Takes 12 pictures, 2 1/4 x 2 1/4", on 120 film. **LENS:** 75mm f/3.5 Tessar. **SHUTTER:** MXB Synchro-Compur with LVS scale. With built-in exposure meter, **\$99.** Eveready case, **\$10.50**

AGFA AUTOMATIC 66 automatically sets its own exposure and thus eliminates the main cause of picture failure. Light entering the photo electric cell grid is converted into electrical energy and auto. sets the shutter speed dial to proper setting. Camera takes 12 2 1/4 x 2 1/4" exposures on 120 roll film. **SHUTTER:** Pronor SVA B to 1/300 sec. **LENS:** Agfa Color Solinar 75mm f/3.5. Has MX flash synchronization, automatic frame counter, double exposure prevention, and coupled rangefinder. **\$237;** Eveready case, **\$12**
